

# PROJECT MANAGEMENT CHALLENGE 2006

## *Third Annual NASA Project Management Conference*

### BIOGRAPHY

**Mr. Jay C. Hoover**  
***Senior Project Manager Experimental Facility Development***  
**NASA JSC**

**Biography:**

Mr. Hoover is a Senior Project Manager and currently serves as Champion for Best Practices Implementation and as the Lean/Six Sigma Belt for Quality System Improvements.

Mr. Hoover is a frequent speaker and representative of NASA at industry project management conferences, symposiums, and seminars. He is an active member of the Construction Industry Institute's Best Practice Implementation Strategy Committee and of the National Building Commissioning Association.

Mr. Hoover is an instructor for NASA for the APPL Advanced Course Construction of Facility Project Management and the NET Best Practice Implementation Workshop Facility, Sustainability Design.

Mr. Hoover has had a career in federal service spanning seven administrations and has thirty-eight years experience in the various phases of quality management of the facility project delivery process, including planning, design, construction, activation, operation, and maintenance.

Mr. Hoover, an Honor Graduate of University of North Carolina at Raleigh, was awarded the JSC Quality and Safety Achievement Reward (QASAR) and the NASA Exceptional Service Medal in recognition of his efforts in development and implementation of Quality Assurance programs in the Center Operation Directorate.
